Comment: (The setting is) fab with the children. A loves Active8 and playing outside. I would like to see more set activities each day. A is more tired now that he is being given more things to work towards.

Comment: A very caring and sharing nursery. I have always felt at ease discussing away worries and concerns in confidence.

All the ladies are extremely devoted to the care and teaching of the children.

L has improved greatly on his understanding across the 7 areas of learning and his speech and language has dramatically improved.

The greetings each day from the staff are very welcoming.

It has been an absolute pleasure having the connection with the Naval Under Fives.

V Thornton.

Comment: Without this playgroup, L wouldn't be where he is now. They've helped me so much. L loves his playgroup. His communication and speech has come so far because of the amazing staff.
